Your First Choice for
Electrical Service

Southwest Industrial Electric...

Competent, Prompt, Professional Service.

Southwest Industrial Electric has been a leader in solving Southern California's electrical problems for over 25 years. We specialize in industrial and commercial work and pride ourselves on being skilled at handling any electrical problem, large or small.

Our hallmark has been good service, at a fair price, done on time, done right and on call 24 hours a day seven days a week.

Our services include: power distribution and machinery wiring, lighting design and installation including HID lighting, security lighting, automated lighting control systems, energy retrofits and power filtering. We also service custom control systems to control temperature, refrigeration, pneumatics, hydraulics and other machinery.

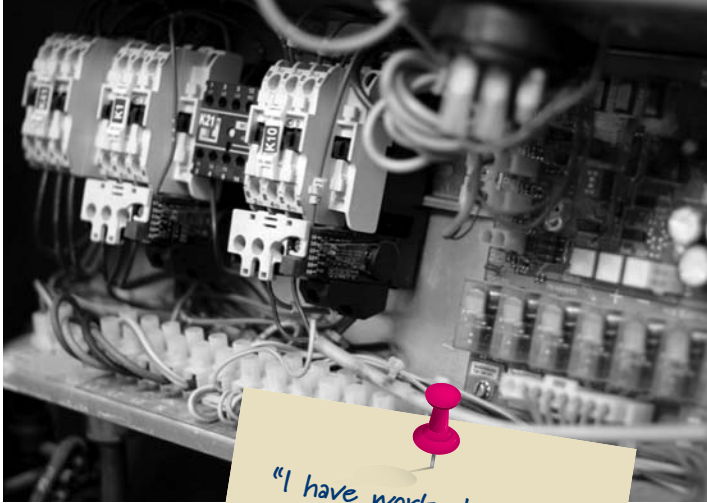

From computer cabling to underground electrical distribution systems – we do it all. We look forward to doing business with you and giving you the best electrical service in Southern California.

We Are Experts In:

- Lighting Installation & Repair
- Short Circuit & Overload Repair
- Circuit Upgrades
- Machine Control
- Motor Control
- New Equipment Wiring
- Service Upgrades
- Computer Cabling
- Computer Control
- Complete Factory Relocations
- Energy Saving Retrofits
- And More...

"Southwest Electrical has very knowledgeable, experienced and competent electricians. They always put their customer's needs first and I have experienced nothing but complete professionalism from everyone who works there."

—B.B., Plant Engineer
for a Fortune 500 Company

"I have worked on numerous high profile projects with multiple contractors and Southwest Industrial Electric is by far the best company that I have dealt with."

"I know that I can depend on them for a quality electrical or support installation every time. They excel at proactively engineering custom solutions that are tailor-made for my immediate and long-term needs."

-C.C., Plant Engineer
