

For the 4th Time, Southwest Industrial Electric Appears on the Inc. 5000, Ranking No. 2968 With Three-Year Revenue Growth of 130 Percent

Inc. Magazine Reveals Annual List of America's Fastest-Growing Private Companies—the Inc.5000

August 17, 2021 – Inc. magazine today revealed that Southwest Industrial Electric is No. 2986 on its annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies. The list represents a unique look at the most successful companies within the American economy's most dynamic segment—its independent small businesses. Intuit, Zappos, Under Armour, Microsoft, Patagonia, and many other well-known names gained their first national exposure as honorees on the Inc. 5000.

“It is an honor to be a part of the INC 5000 for the 4th year in a row. The companies on this list are extraordinary and we are so proud to be listed amongst them. We feel very lucky to have our incredible customers, vendors, and team members that we get to work with every day. We would like to thank each and every one of you for your hard work and dedication to what you do. We look forward to continuing to build this company to be able to expand our services to our customers.” CEO, Kristin Larson of Southwest Industrial Electric

Not only have the companies on the 2021 Inc. 5000 been very competitive within their markets, but this year's list also proved especially resilient and flexible given 2020's unprecedented challenges. Among the 5,000, the average median three-year growth rate soared to 543 percent, and median revenue reached \$11.1 million. Together, those companies added more than 610,000 jobs over the past three years.

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found at www.inc.com/inc5000. The top 500 companies are featured in the September issue of Inc., which will be available on newsstands on August 20.

“The 2021 Inc. 5000 list feels like one of the most important rosters of companies ever compiled,” says Scott Omelianuk, editor-in-chief of Inc. “Building one of the fastest-growing companies in America in any year is a remarkable achievement. Building one in the crisis we've lived through is just plain amazing. This kind of accomplishment comes with hard work, smart pivots, great leadership, and the help of a whole lot of people.”

Southwest Industrial Electric is a full service, professional electrical contractor that has been serving the Southwest Region of the United States with high quality repairs and installations for over 40 years.
