## WHAT DO YOU ENJOY MOST ABOUT YOUR JOB?

*"I enjoy the unpredictability of it, that you never know what kind of machine you are going to work on and what kind of system of controls it uses. It's never the same thing everyday. It's a very rewarding experience being able to not only understand the machine, but know it enough to be able to trace down faults and get it running again. Some things I handle on the job are problems with machines not turning on, not running exactly as they are intended to, whether it's specific controls not working, or motors not functioning at all."*

## TESTIMONIALS FROM OUR RECENT WORK

"All work is great, your guy was professional, clean and easy going. Work was done in a timely fashion. If I need any other sparky thingy fixed, I will most certainly give you a call." -Chuck

"Fantastic, no issues at all! Very knowledgeable and effective service. We really appreciated that there was very low maintenance required on our end." -Andy

"It went very well, very well. I was shocked by how great you were. Without a doubt, the smoothest service I have received. Great communication from everyone I spoke with at Southwest. You delivered when you said it would be done and I appreciated your guys always showing up so early. You made my last 6 months!" -Sofya

"Great! You did everything to get us to pass our inspection. If anything ever comes up we will definitely be using you. 5 stars from us!" - Mike
