

Marking their 5th consecutive appearance, Southwest Industrial Electric Appears on the Inc. 5000, Ranking No. 3787 With Three-Year Revenue Growth of 132%

Inc. Magazine Reveals Annual List of America's Fastest-Growing Private Companies—the Inc.5000

August 23, 2022 – Inc. magazine recently revealed that Southwest Industrial Electric appeared No. 3787 on its annual Inc. 5000 list, the most prestigious ranking of the nation's fastest-growing private companies. The list represents a unique look at the most successful companies within the American economy's most dynamic segment—its independent small businesses. This year was special for SIE as the company was inducted into the INC 5000 Honor Roll. A prestigious group within the already esteemed recognition award.

“It is an honor to be a part of the 2022 INC 5000 and we are very proud to make the Inc 5000 list for the 5th year in a row. In order to be inducted, companies must maintain a specific percentage of continuous revenue growth over a minimum of 5 years. We would like to thank our incredible customers, vendors, and team members that we get to work with every day. Thank each and every one of you for your hard work and dedication to what you do. We look forward to continuing to build this company to be able to expand our services to our customers.” CEO, Kristin Larson of Southwest Industrial Electric

Not only have the companies on the 2022 Inc. 5000 been very competitive within their markets, but this year's list also proved driven to reach new levels of growth. Among the 5,000, the average median three-year growth was 230% percent, and total revenue reached \$317.6 billion. Together, those companies added more than 1,179,282 jobs over the past three years.
